

TYPE THP/UT

MINIMUM LOADING HEIGHT FOR MAXIMUM REQUIREMENTS

Range of applications: Public roads

- 2750 mm alternative width for excellent maneuverability
- Mechanical width adjustment by means of spacers THP/UT split (1800)
- Optimum payload/axle load ratio

Optimized for high loads

- Lowest loading height

Technical features

- Twin tires 205/65 R 17.5 / 215/75 R 17.5
- Axle load 25 t at 10 km/h
